Lived Experience Partners

**Interested in sharing your experience to improve our healthcare system in Eastern Ontario?**

■ **Are you passionate about creating a people-centred healthcare system?**

The Great River Ontario Health Team is looking for patients, clients, residents, community members and caregivers from Stormont, Dundas, Glengarry, City of Cornwall, rural Southeast Ottawa and Russell Township and Akwesasne to join the Lived Experience Partners Table, working groups or occasional engagement initiatives to improve the quality and experience of healthcare in Eastern Ontario.

■ **Do you have experience in managing chronic conditions in yourself or in a loved one?**

We need to hear from individuals who have received health services (whom we call lived experience partners), to ensure their diverse voices and experiences inform all discussions and decisions of the GR OHT. Efforts to recruit from equity-deserving groups who face additional barriers, discrimination and racism will be a priority. Different levels of involvement and commitment will be available.

■ **Please contact us for further information on how to apply.**
